

Hello,

I am writing concerning bill 1132. When all the talk to move the now "Hartford Yard Goats" from New Britain to Hartford, it was stated by all involved, that no taxpayers money from Connecticut taxpayers would be used to build the Stadium and surrounding areas. So why is it I hear there is a bill proposed doing just that? It comes with great disappointment that, once again, the taxpayer of Connecticut have been lied to. The taxpayer should not have the burden of paying for the political gains of those involved. We are already paying enough in taxes and should not have to pay more for the enjoyment of others. By the way, people were happy with the team right where it is and do not have the desire to travel to Hartford with all the parking issues to see this game.

In closing, I hope you think of the taxpayer when you decide on this bill, and remember we are already burdened enough. This money can be put to better use other than a baseball team.

Discouraged Connecticut Taxpayer,

Debbie Chapin
